DETAILED ACTION

Allowable Subject Matter

1. Claims 36-39 are allowed.

The following is an examiner's statement of reasons for allowance: The allowability of the claims resides, at least in part, that the closest prior art of record **Rock et al. (US 5,555,481)** does not disclose or suggest, alone or in combination the step of:

As for independent claim 36, **generating second curve data defining a second layer area to be filled with a second material, said second layer area, when filled, having at least one side surface that has an overall convex shape and abuts at least a portion of said structural layer side surfaces**, in combination with the other elements and features of the claimed invention.

As for independent claim 38, **said second support layer areas, when filled with said second material, define a support structure inside said void volume, the support structure having a support structure volume that is substantially less than said void volume**, in combination with the other elements and features of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
